Always striving to be her best self, Peggie has filled in the holes and closed the gaps with over *40 new additions*.

With all the attention she has been getting, she knew it was time to “go big” with deeper shelves, deeper pegs, deeper and wider hang rails and bigger A4 size noteboard. Her new larger than life Perforated and Plain panels make a big impression.

Little things not to be forgotten, her new peg prongs handle all the accessories that she knows make the look.

Keep an eye out for what’s new

“This is going straight to the pool room.”

NEW YORK
JOURNEY

She is made of the good stuff with honest geometry and a material palette to match.
Solid wood. Baked-on lacquer.
A touch of brass.
Peggie's perforated grid system and dependable kit of parts create a framework for your ideas.
In stock and there when you need her.

The Panel
Using the Wall mounts, modular panels can be easily hung onto any type of wall in various configurations. The nifty design of the holes themselves keeps the pegs on a level plane. Their pattern creates a base template onto which the system is assembled.

The Peg
Crafted with a tapered end, the pegs wedge securely into the panel and are kept in place by the safety lock. The notch carved into the front end locates accessories like shelves, hangrails, mirrors, and graphic options that bring your walls to life.

The Shelf
A study in simplicity and strength, the shelf tabs securely over the peg and nests into the notch in the front to ensure it stays put. Updatable graphic holders can be positioned anywhere along the top groove.

The Palette
The natural texture of solid oak and brass pegs plays nicely with an assembly of black, white and brass components. Create a monochromatic pairing or play up the contrast for more pop. Brass details add a little wink.

Love the look but not sure how to pull it all together? Peggie gets a lot of attention, but it's her friends at *Shop for Shops* behind the scenes that help her shine.

Fits like a glove.
Peggie is always happy to go that extra mile to get it just right. Tailor the new oversized panels to suit your project. Need a bespoke peg length? She'll make them to order up to 500mm long.

Instant gratification. (Almost)
Unless back-ordered (it's tough being so popular), most items are held in stock. Peggie will be knocking on your door before you know it.

You know the drill.
A lot on your plate? You can install Peggie yourself but say the word and Shop for Shops will step in to take care of the installation.
